

Leading Voices

To inspire Change & Transformation

Thought leaders and researchers bring fresh perspectives, trends and data-driven thought leadership about the most pressing issues that organizations and companies face, and about the newest management practices.

Leading Talents

To help build Leadership capabilities

We provide Learning & Development opportunities for professionals to help them build leadership capabilities, elicit creativity, innovative ideas, and critical thinking in order to face business management challenges.

Leading for Innovation

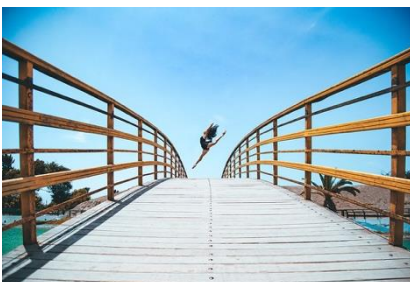

To boost Innovation through social interactions

We make an open innovation platform available to the members of our IB Club to stimulate learning through social interactions and idea generation. It is an opportunity for individuals to spot solutions to complex problems, and to identify new breakthroughs for development.

Leading for Entrepreneurship

To bring Entrepreneurs under the spotlight

We bring into the spotlight companies that are committed to maximizing benefits to society, the economy, and the environment. We give exposure and share inspiring stories of new sustainable initiatives and entrepreneurs that are addressing Sustainability & CSR challenges.
