

# Sustainability and ESG Third-Party & Supplier Due Diligence

## Our Value Proposition for Sustainability and ESG Third-Party and Supplier Due Diligence

We combine digital technologies, process, and people with a collaborative outsourcing model to chart a clear and affordable path for Sustainability and ESG Due Diligence - one that enables suppliers, buyers and other third parties to extract the most value.

### Components of Our Due Diligence Process

Our solutions allow to better inform stakeholders of material environmental, social and governance (ESG) risks and position them to achieve sustainability outcomes. This type of due diligence is conducted in accordance with policies and standards.
